### **Club Purpose:**

GSSA is a national student-run organization dedicated to educating medical and dental students about Global Surgery/Global Dentistry and creating a network of students interested in the field. Historically, GSSA has been founded and run by medical students, for medical students. However, the national team has recently added a Dental Lead. Ultimately, we hope to foster interest in global dentistry/surgery among aspiring dentists and oral surgeons. This club will aim to provide a central platform that facilitates the exchange of knowledge, ideas, opportunities, and strategies within an interdisciplinary community of students, faculty, and professionals in the fields of global dentistry/surgery. Please see our website to find out more about who we are:
