PATIENT INFORMATION BOOKLET
The UB School of Dental Medicine is committed to providing you with high quality comprehensive oral health care. This booklet contains important treatment, payment, and privacy policies for patients of the UB School of Dental Medicine. We urge you to take time to read it through carefully and direct any questions you may have to your dental care provider.

**PRIVACY POLICY**

In compliance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) as well as The Privacy Act of 1974, you should have received a copy of the UB School of Dental Medicine’s Notice of Privacy Practices. This notice describes how medical information about you may be issued or disclosed as well as how you can get access to this information. You are responsible for the contents of the notice. You can download a copy of Notice of Privacy Practices at:

https://dental.buffalo.edu/patients/current-patients/patient-privacyinformation.html

To request a copy of our Notice of Privacy Practices contact:

UB School of Dental Medicine
Compliance Officer 325 Squire Hall
Buffalo, NY 14214-8006
(716) 829-3332

**PHOTO I.D.**

To prevent identity theft, we may request a photo I.D. at any time in accordance with the FTC’s Red Flag Rules (16 CFR 681.2). Acceptable photo ID includes NYS driver’s license, U.S. Passport, valid Medicaid Benefits Card, and federal or state issued identification.

You will also be asked to have your picture taken to complete your electronic record.

**TREATMENT POLICIES**

In as much as the University at Buffalo (UB) School of Dental Medicine provides comprehensive care to patients, we will do our best to incorporate your dental treatment desires and wishes into the treatment plan that will be designed for you. The UB School of Dental Medicine reserves the right to terminate, limit, or refuse treatment for any patient who is uncooperative,
seeks dental treatment with an outside provider while in active treatment at the UB School of Dental Medicine, or refuses to accept and follow the policies of the UB School of Dental Medicine and/or the treatment proposed to you.

I have been accepted as a patient, what happens next?

Once accepted as a patient you will then be assigned to a student dentist to begin dental treatment. Every effort is made to assign you as quickly as possible, however you may have to wait 3 to 6 weeks if your screening appointment occurs shortly before or during a semester break. A Welcome Center Staff member will contact you directly to schedule an appointment. This may be with a junior or senior student dentist, or a post-graduate resident depending on your treatment needs. Your initial appointment with your student dentist will consist of a thorough review of your medical and oral health histories, comprehensive intra and extra-oral examination including head and neck, oral cancer screening, and an in-depth clinical evaluation. There may be the need for additional types of radiographs (x-rays) or impressions for study casts to provide a complete diagnosis of your dental needs. There are fees associated with this visit. Do not expect actual dental treatment on your first visit. The student’s educational process requires complete examination and diagnostic treatment planning prior to initiating treatment.

How long are appointments?

Since the UB School of Dental Medicine is a teaching facility, the length of your appointments and overall treatment will likely take longer than it would from a private practitioner. High standards are required of our student dentists, and our clinical faculty evaluate student’s abilities and skills. You should therefore expect to spend between 2 to 3 hours per appointment. This attention to detail requires more of your time but assures you of quality dental care. If your schedule is such that it is difficult for you to come frequently and stay for the rather lengthy appointments often required, then you should consider seeking care from another dental provider.

What if I change my mind after treatment has already been started?

If for some reason you change your mind about continuing dental treatment at the UB School of Dental Medicine, discuss your decision with your student dentist and the faculty member supervising your care. They will advise you of other options available to you, and of what to expect if treatment is discontinued. If you do not present to an appointment for a time period of one year, your file will be discharged. If you plan to begin or continue treatment at a private provider of your choice, copies of your dental records and radiographs (x-rays) will be provided upon signature request. The request forms may be obtained at Patient Records or phone (716) 829-2526. There are fees associated with duplication of your records. Please allow 5-10 business days for Patient Records to process your request.

Does the UB School of Dental Medicine offer any limited types of treatment?

Although it is our goal as a teaching institution to provide comprehensive care to all patients who are accepted for treatment, we are not always able to provide full dental care to everyone. In some instances, we accept patients for LIMITED TREATMENT. Acceptance for limited treatment, however, does not guarantee or obligate the UB School of Dental Medicine to provide additional treatment.

A written referral from a referring provider is required for some types of limited treatment. Some instances where care can be offered on a limited basis are as follows:

1) Oral Surgery Only - Extraction of one or more teeth in order to alleviate or prevent pain or infection. This does not obligate the UB School of Dental Medicine to replace such teeth for functional or cosmetic purposes.
2) Endodontic Treatment Only - This is a special category of limited treatment that is limited to endodontic (root canal) therapy. This procedure does not include the final restoration of the endodontically treated tooth.
3) Orthodontic Treatment Only - To move poorly aligned teeth to a more desirable position.
4) TMD Treatment Only - To treat disorders of the joint that connects the jaw to the temporal bones of the skull.
5) Implant Treatment Only - Written referral is required.
6) Periodontal Treatment Only - Written referral is required.

In some cases, limited treatment for other than the situations listed above may be offered. This treatment will be limited to the procedures discussed and listed in your dental record.

What if I have to cancel my appointment?

Should you need to cancel your appointment, you MUST call your Welcome Center staff member at 716-829-5993 at least 24 hours prior to an appointment. If you cannot reach your Welcome Center staff member,
call the UB School of Dental Medicine at (716) 829-2824 (M-F 8:15 a.m.-
4:45 p.m.) to page your student or leave a message. For all patients: Your
time is valuable and so is that of your student dentist. You can help your
student dentist provide your care more efficiently by being available and on
time for your appointments. Repeated cancellations (calling to reschedule
an appointment), arriving late, and disappointments (a cancellation with less
than 24-hours notice or not showing up for a scheduled appointment) may
result in your discharge from the UB School of Dental Medicine. Our current
policy states that if you cancel an appointment twice with less than 24 hours
notice the School has the option to discharge you. We understand that at
times emergencies arise. However, loss of clinic time can delay a student’s
graduation, inhibit the educational process, and may compromise your dental
health.

What if I need emergency dental care?

**Between 8:30 a.m. and 4:00 p.m. Monday thru Friday excluding holidays:**
Call 829-2824:
(1) Have your assigned student dentist paged.
(2) If you do not have an assigned student dentist or your assigned
student dentist is not available, have the dental school switchboard
operator transfer your call to our emergency appointment desk or call it
directly at 829-6439 and make an emergency appointment.
(3) Please note that emergency care will be limited to the management
of pain, swelling or trauma.

**After Hours, Weekends & Holidays**

If you are a current patient who needs emergency treatment after hours, on
weekends or on holidays, call 866-244-9387 and identify yourself as a current
patient. You will be asked by the on-call technician whether your emergency
is general dentistry or orthodontic related, you will also be asked to provide
your contact information, and any other information related to your dental
emergency. You will then receive a call from the designated on-call dentist or
orthodontist.

Please note that care in the emergency room is limited to the management
of pain, swelling, or trauma. Specific dental procedures such as fillings or
extractions will not be performed.

**Other options**:

ADULT PATIENTS with a dental emergency can contact their local hospital
emergency room when immediate care is necessary.

CHILDREN: Parents/Guardians with children who have a dental emergency
after regular clinic hours and on weekends can contact the John R. Oishei
Children’s Hospital as follows:
(1) Call (716) 323-2100 and ask the operator to page the on-call
dental resident.
(2) Explain that your child has a dental emergency. The on-call
dental resident will talk to you and determine what emergency
treatment procedure is appropriate for your child.
(3) Follow the dental resident’s recommendations.

The School of Dental Medicine is not responsible for reimbursement of any charges you incur while
obtaining emergency dental treatment at any facility other than the dental school.

**PAYMENT POLICIES**

Dental care is provided as part of the UB School of Dental Medicine’s
educational program. You have an obligation to your student dentist as well
as to the UB School of Dental Medicine to remit payment in full at the time
service is rendered. Treatment plans include only estimated fees. The fee in
effect when a procedure is started is the fee that will be charged. Fees in the
student dentist or pre-doctoral program are typically 1/3 of fees charged in
private practice. Fees for dental care provided in post-graduate programs are
typically 2/3 of the fees charged in private practice. The complexity of your
oral health care needs will determine which program is appropriate for you.

Patients that do not follow UB School of Dental Medicine payment policies are
subject to discharge.

**How do I pay for my dental care?**

At each appointment, you will be required to speak with a staff member and
pay for any previously completed treatment in full before you are checked-
in for your current appointment. Failure to do so may result in your current
appointment being rescheduled. You are encouraged to pay for all treatment
in full at the end of each appointment to avoid having future appointments
rescheduled. Payment may be made by: cash, money order, personal check,
Visa, MasterCard, Discover and American Express. Additional fees are
charged for checks returned.

- **IMPLANTS** - all implants and related implant treatment must be paid in full
  before the implant surgery can be scheduled.
- **CROWNS/BRIDGES IN PRE-DOC CLINIC** - any crowns or bridges being
done in the pre-doctoral clinic must be paid in full prior to the tooth/teeth being prepped for the crown(s).
• CROWNS IN POST-GRADUATE CLINIC - 2/3 of the total fee of any post-graduate crown or bridge must be paid prior to the tooth/teeth being prepped. The final 1/3 is due the day the procedure(s) will be completed.
• PARTIAL AND COMPLETE DENTURES IN ALL CLINICS - 2/3 of the total fee for any partial or complete denture must be made at the time of impression and the final 1/3 is due the day the partial or denture will be delivered.
• in addition to the above payment requirements, all previously completed treatment must be paid in full prior to starting any of the above procedures.

Occasionally procedures require out-of-school laboratory involvement. Therefore, prompt payment of these fees will help ensure timely delivery of your dental treatment. If one of the above-mentioned procedures is a part of your treatment plan, your student dentist should inform you well in advance of when payments are expected.

No new treatment can be initiated if an account is past due. UB School of Dental Medicine will not be held accountable for any additional treatment needs that cannot be provided as a result of a delay because of an overdue balance.

If you start a procedure on a prepaid crown, bridge or denture, you will be responsible for the total cost once the treatment is started. Should you fail to complete the treatment, you will NOT be refunded any portion of that fee, as the pre-doctoral fees reflect the material/production costs only.

Any credit on an account will be applied to future treatment. At the time a patient is discharged from all treatment at UB School of Dental Medicine, a refund will be issued for any unused credit balance. Refunds are issued via credit card if the original payment was made by credit card. If cash or personal check was the original form payment, then the refund will be in the form of a check from Albany and takes approximately 3 weeks to be processed. The check will be mailed to the patient’s address on file.

MEDICAID INSURANCE COVERAGE

Patients eligible for coverage under the Medicaid and Medicaid Managed Care Programs should inform the UB School of Dental Medicine of their status at the time of admission. Patients obtaining coverage after admission are expected to notify the Billing Office immediately. The SDM may charge a patient for a non-covered service when a private-pay agreement (mutual and voluntary signed treatment plan) is in place. If you have questions regarding your eligible coverage, consult your caseworker or local Social Services Benefits office.

Possession of an insurance card issued by the Department of Social Services or a managed care insurance company does not guarantee eligibility. Your card must be presented to a Welcome Center staff member before each treatment session to verify eligibility, and when requesting authorization for future treatment.

Eligibility does not guarantee coverage. Patients residing in a county other than Erie County may not be covered for treatment performed at the UB School of Dental Medicine.

Medicaid insurance programs cover only “essential services”. It does NOT cover all dental procedures. There are specific dental procedures that are only covered in certain circumstances (conditional procedures) and other dental procedures that are not allowed under any circumstances (non-covered procedures). Your student dentist will prepare a treatment plan for you based on your oral health status and comprehensive care needs.

Treatment that is covered, conditional and/or non-covered will be so noted on the treatment plan. If you would like to have specific conditional and/or non-covered services provided, be advised that you will be financially responsible for those services and will be required to sign a private pay agreement. However, if you do not wish to receive the non-covered procedure, a covered alternative procedure may be offered.

It is your responsibility to inquire whether recommended treatment will be covered by your insurance. Your proposed treatment and your expected financial responsibility should be discussed with your student dentist prior to signing your treatment plan.

How does the UB School of Dental Medicine handle private insurance claims and Flex Spending Accounts (FSA)?

Currently, the UB School of Dental Medicine does not participate with any FSA or third party payers or insurance companies other than the Medicaid, Healthplex, Liberty and Fidelis (Medicaid only) program. We are exploring other insurances to participate with, as we contract with new companies we will post notices in the welcome center area to inform you of any additions. As a courtesy to our patients, a standard dental insurance claim form will be provided for you to submit to your insurance company or FSA. This form will only be provided when the procedures
outlined in your treatment plan have been completed and your account for those services is paid in full. If you have dental insurance, we strongly recommend you contact your carrier for coverage and eligibility information. The UB School of Dental Medicine is unable to guarantee that any procedure will be completed within a certain calendar year.

The UB School of Dental Medicine is unable to manage workers compensation or no-fault insurance claims. If your dental needs are related to these types of claims, you are urged to seek your care with a provider other than the UB School of Dental Medicine.

NON-PAYMENT

If you have a question or concern regarding your financial obligations with the UB School of Dental Medicine, contact the Billing Office as soon as possible at (716) 829-3226 (M-F 8:30 a.m.-4:00 p.m.).

Any account that has not been resolved after 60 days is subject to referral to a collection agency and the individual will be discharged as a patient of the UB School of Dental Medicine. You will be responsible for all fees associated with the collection process including but not limited to late fees, collection agency fees, and attorney fees.

Failure to keep a current account balance may prevent you from having any new treatment started. This may result in a delay of treatment and may also compromise your dental health.

BIOPSY SPECIMENS, PATIENT RELATED ITEMS, & EXTRACTED TEETH

Biopsy specimens, patient related items (crowns, bridges, dentures, etc. that are no longer useful or cannot be identified) and extracted teeth are potentially infectious because they are contaminated with blood and/or saliva. These items must be disposed of in accordance with accepted regulatory guidelines.

Extracted teeth are considered regulated medical waste and are therefore potentially infectious. Extracted teeth may be returned to a patient upon request, however, once the teeth are given to the patient, waste management regulations no longer apply.

DENTAL IMPLANT INFORMATION

Frequently asked questions regarding Dental Implants:

Am I a good candidate for implants?

Dental Implants are suitable for most adults in good health. The Implant Director or Implant Faculty will assess the feasibility of providing implant treatment. A thorough examination, impressions, and radiographs will be needed to determine the anticipated prognosis, the optimal placement of each implant and the quality of bone that is available. Implant treatment normally involves several stages of treatment.

What will my implants cost?

Since every individual case is unique, costs will vary. You must meet with both your comprehensive provider and implant surgeon to obtain written estimates. Each provider will formulate a separate treatment plan. In addition to your “restorative” treatment plan with your current comprehensive provider, you will also be referred to an implant surgeon who will formulate the “surgical” treatment plan. ADDITIONAL FEES WILL INCUR for the surgical portion of your treatment. You must agree to the procedures listed in ALL treatment plans and you will be required to sign the plans before any treatment is rendered. Procedures will require pre-payment as each stage progresses.

*If you are eligible for the pre-doctoral implant discount, note the discount will NOT be applied until the abutment and crown have been delivered by your pre-doctoral student. Discounts do not apply to post-graduate treatment.

How long will my implant treatment take?

As this is a school, treatment takes more time that at a private dental office. Patients that require additional surgery such as bone grafting must allow for healing of the graft, generally 3-6 months, depending on the size of the graft needed. After implant placement, the bone must heal and integrate around the implant before the implant can be “loaded” with the restoration. This healing typically takes 3-6 months and the restorative phase takes an additional 2-3 months. Allowing for breaks in the school calendar, total treatment times at the SDM are typically 1-2 years to completion. However, treatment times will be extended for those patients who have limited availability or those with poorer quality bone.

PLEASE NOTE: There is a low rate of implant failure (<5%). Nevertheless,
the success of the implant depends on several factors outside of the
provider’s control. Therefore, the success of the implant treatment cannot
be guaranteed.

Risks factors for implant failure include, but are not limited to:
• Smoking
• Certain anti-depressants
• A lack of availability for follow-up care
• Poor health
• Certain medications that cause dry mouth or weaken bone
• Poor oral hygiene
• Untreated dental caries
• Untreated gum disease
• Clenching or grinding
• Heavy alcohol use

PATIENT RIGHTS AND RESPONSIBILITIES
As a patient of the University at Buffalo School of Dental Medicine Oral
Diagnostic and Treatment Center (Clinic) in the State of New York, you
have rights and responsibilities. Students, faculty and staff are committed
to providing the best care available and ask that you participate in your own
health care by being an active and informed patient.

PATIENTS' BILL OF RIGHTS
As a patient in a Clinic in New York State, you have the right, consis-
tent with law, to:

1. Understand and use these rights. If for any reason you do not
understand or need help, the school will provide assistance;

2. Be treated and receive services with dignity and respect, regardless of
race, religion, age, disability, gender, beliefs, marital status, lifestyle, sexual
orientation, national origin or sponsor;

3. Be informed of the services available at the clinic;

4. Be informed of the provisions for off-hours emergency coverage;

5. Receive treatment in a clean and safe environment, free of unnecessary
restraints;

6. Receive emergency, incremental and total care to completion consistent
with the standard of care in the profession;

7. Be informed of and receive an estimate of the charges for planned
services, view a list of the health plans and the hospitals that the center
participates with; eligibility for third-party reimbursements and, when
applicable, the availability of free or reduced cost care;

8. Receive an itemized bill or statement of account, upon request;

9. Receive an estimate of the amount that you will be billed after services
are rendered;

10. Obtain from your health care practitioner, or the health care
practitioner’s delegate, complete and current information about the
diagnosis, treatment and prognosis in terms you can reasonably be
expected to understand;

11. Receive education, counseling and explanations to your questions;

12. Know the names, positions and functions of any personnel involved
with your care;

13. Participate in all decisions about your treatment;

14. Receive from your physician, the information necessary to give
informed consent prior to the start of any non-emergency procedure or
treatment or both. An informed consent shall include, as a minimum, the
provision of information concerning the specific treatment or procedure, the
alternatives to care, the risk of no treatment, the reasonably foreseeable
risks and benefits of the treatment and expected outcomes disclosed in
manner permitting you to make a knowledgeable decision;

15. Refuse examination or treatment to the extent permitted by law and be
fully informed of the medical consequences to your action;

16. Refuse to take part in experimental research. In deciding whether or
not to participate, you have the right to a full explanation;

17. Access to a patient advocate;

18. Voice grievances and recommend changes in policies and services to
University at Buffalo School of Dental Medicine staff, the operator and the
New York State Department of Health without fear of reprisal;

19. Express complaints about the care and services provided and
have University at Buffalo School of Dental Medicine staff investigate such complaints. The University at Buffalo School of Dental Medicine is responsible for providing a written response within 30 days if requested indicating the findings of the investigation. If you are not satisfied, you may complain to the New York State Department of Health;

20. Privacy and confidentially of all information and records pertaining to your treatment;

21. Approve or refuse the release or disclosure of the contents of your medical record to any health-care practitioner and or health care facility except as required by law or third-party payment contract;

22. Access to your medical record per Section 18 of the Public Health Law, and Subpart 50-3. For additional information link to: http://www.health.ny.gov/publications/1449/section_1.htm#access; Access to Your Medical Records and Do I Have the Right to See My Medical Records?

23. Review your records with a clinician and obtain a copy of your record for which the School of Dental Medicine can charge a reasonable fee;

24. Designate family members and other adults as authorized representatives to disclose protected health information, upon written authorization. The authorized representative will be given priority to visit consistent with your ability to receive visitors. You have the right to impose limits on the disclosures and revoke the authorization at any time, as permitted by law according to the Notice of Privacy Practices;

25. When applicable, make known your wishes in regard to anatomical gifts. Persons sixteen years of age or older may document their consent to donate their organs, eyes and/or tissues, upon their death, by enrolling in the NYS Donate Life Registry or by documenting their authorization for organ and/or tissue donation in writing in a number of ways (such as health care proxy, will, donor card, or other signed paper).

YOU HAVE A RESPONSIBILITY TO:

1. Provide to the best of your knowledge, accurate and complete information about present medical and dental history, past illnesses, hospitalizations, medications, and other matter relating to your health. You have the responsibility to report changes in your health status;

2. Follow the treatment plan agreed upon by you and your dental care providers. This may include following instructions of allied dental health personnel as they carry out the coordinated plan;

3. Make known to your dental care provider that you understand and agree to the treatment plan, and that you know what is expected of you;

4. Comply with the rules and regulations of the UB School of Dental Medicine, The State University of New York at Buffalo, and the State of New York;

5. Be on time and available for your appointments (3-4 times per month);

6. Have a working phone number in order for your dental provider to be able to contact you to schedule appointments;

7. Be considerate and respectful of the rights of other patients and UB School of Dental Medicine personnel. You are responsible for being respectful of the property of other persons and the University at Buffalo. Patients are expected to treat UB faculty, students and staff with courtesy and respect. Inappropriate behavior or comments of a cultural, ethnic or sexual nature will not be tolerated and may result from dismissal as a patient from the School of Dental Medicine;

8. Provide proper childcare while you are being treated at the SDM clinics. Children are not to be left unattended and are not permitted to accompany an adult patient who is receiving treatment;

9. Be escorted into patient treatment areas by your student dentist. No other individual should accompany you into the treatment areas unless medically necessary or approved by the student dentist’s faculty;

10. Pay for service at the time it is provided.

Public Health Law (PHL) 2803 (1)(g)Patient’s Rights, 10NYCRR,405.7,405.7(a)(1),405.7(c)
Student dentists will provide your dental care. These student dentists are in the process of completing necessary academic as well as clinical requirements to obtain a Doctor of Dental Surgery (DDS) degree. If for any reason you have a concern or comment regarding the treatment that is being provided, always consult with your student dentist and supervising instructor first. If satisfaction is not received you have the right to access our Patient Advocate.

Formal complaints involving treatment, student/faculty concerns or other issues involving the delivery of your dental care MUST BE SUBMITTED IN WRITING to the Patient Advocate, 325 Squire Hall, Buffalo, NY 14214-8006. Access to the Patient Advocate is by appointment only (716) 829-2390. You may also contact the New York State Department of Health’s Office of Health Systems Management.

PATIENT PARKING:

Valet Parking: Valet Parking is available at Squire Circle at the front door of UB School of Dental Medicine Squire Hall for a nominal fee.

Self-Parking: Limited free patient parking is available immediately adjacent to the School of Dental Medicine in the Squire Hall Lot with a parking permit. Additional parking is available in the Tower Lot directly across Hayes Road and in the Michael Lot near Bailey Avenue.

Designated spaces for those with official handicapped hangtags are available in all patient parking lots. Parking in the circle adjacent to the main entrance to the School of Dental Medicine is NOT allowed. This area needs to remain clear for emergency vehicles to access the building.

You must display an official UB School of Dental Medicine parking permit on the dash of your vehicle to park legally in any of the clinic patient designated lots on campus. Parking permits are given in advance by your student dentist to be valid for your next scheduled appointment or may be obtained at the front desk located in the main lobby of the School of Dental Medicine. This permit must be accurately marked for the date and time of your appointment. A new permit is required for each visit.

Patients are cautioned to park only in designated “Patient Parking” areas. Parking regulations are strictly enforced; illegally parked cars are ticketed and may be towed and you will be liable for any resulting fees. Check with your assigned student dentist or switchboard operator if you have any doubt that you are legally parked.

For additional clinic parking information or for clarification of designated patient parking areas on campus, please refer to the UB School of Dental Medicine Patient Parking Brochure you already received and/or visit our website and click on Clinic Parking Brochure.

http://dental.buffalo.edu/patients/directions.htmlx

Additional Dental Patient Parking Brochures are available in our patient waiting areas and at the switchboard in the main lobby.

CARES PROGRAM

The CARES (Counseling, Advocacy, Referral, Education and Support) Program is on site at the UB School of Dental Medicine. Collaboration with the UB School of Social Work has enabled the development of this program to assist patients with social, medical, transportation and other concerns that may be a barrier to accessing dental care. A Social Worker and School of Social Work interns are available Monday – Friday, 8 a.m.– 4 p.m. to assist patients who may need information, resources, and/or assistance with problem solving. If you believe that you may benefit from this program, please ask your student dentist for more information and have him/her complete a referral for assessment.

The students, faculty and staff look forward to meeting your oral health needs and providing you with the highest standard of dental treatment with your best interests in mind. Your understanding and compliance with the information presented in this booklet will help to ensure you receive the best care possible.
